

BUSINESS TRANSFORMATION

BUSINESS ALIGNMENT PROGRAM

4 SESSIONS

Starting the alignment program requires above all perseverance, sincerity with oneself and the will to work in depth on your business as well as yourself.

This holistic experience is for leaders / entrepreneurs / intrapreneurs who feel the need to (re)align with their business. Whether you are looking for meaning again, or feeling burnt out, this experience will help you to bring out your intrinsic value, your own mission, as well as your businesses purpose in order to align the whole, and put this coherence in action and in synergy.

By going deep, by leaving your comfort zone, we will release the potential of the leader and the company.

Morgane accompanies you for this emergence throughout each session. Creating together the exercises and rituals that allow you to put into immediate action the changes to be made. This allows a deep and continuous personal involvement, to make the most of this holistic experience.

Like the butterfly effect, the lightness of the work is full of depth with a strong impact on the long term.

- Concrete, immediate and personalized actions
- Identification and dissolution of emotional and/or economic blockages
- Integration of simple and effective rituals to connect to one's purpose
- Deep and visible changes

The first two sessions will focus on introspection, the other two will focus on concrete implementation and direct action inside the business.

Each session is confidential and will remain between you and Morgane
