

BUSINESS TRANSFORMATION

PROGRAM GOUVERNANCE

4 SESSIONS

Starting the alignment program requires above all perseverance, sincerity with oneself and the will to work in depth on your business as well as yourself.

With this program, you will:

- Clear your mind, prepare yourself to receive ideas, new concepts.
- Confront your point of view with other participants
- Define the interaction between partners by learning to be more aware of each other.
- Align your goals and vision
- Consolidate, concretise the common perception as a guide and statement for the new organisation
- Write the common roadmap

The results will be:

- Concrete, immediate and personalised actions
- Identification and dissolution of emotional and/or economic blockages
- The integration of simple and effective rituals of connection to the goal.
- Deep and visible changes

Process

The first step is to decode the emotional, what is important to you as a person and to your company as an entity, and its purpose. Then, it is a matter of integrating these vibrations into the company's business model, the project, or the challenge in question. I approach the individual, whether it is the leader or the company, in a holistic way, with its successes and shadows, and especially the alignment between the two. This allows us to reveal the potential of both. I help you get out of your comfort zone and connect to what is essential to give meaning to your decisions and actions.

Each session is confidential and will remain between you and Morgane
